

MAKE YOUR
OUTDOOR SPACE
MORE LIVABLE.
YEAR ROUND.

EZ GLAZE®

Polycarbonate Panel

High-end, professional-grade
roofing panels are EZ to install!

Build better outdoor living spaces for you and your family, rain or shine, by installing EZ Glaze, a premium covering solution for residential roofing projects.

Whether you're covering a patio, pergola, or deck, the virtually unbreakable **EZ Glaze** polycarbonate panels are the first choice for homeowners and residential contractors looking to transform an outdoor space without a complicated installation process.

Panels easily overlap rafters and fasten to existing structure.

3X thicker than traditional polycarbonate panels, **EZ Glaze** premium panels offer the visibility and sleek look of glass at less than half the weight.

EZ Glaze's innovative panel design can be installed directly to rafters on 24-inch centers or over purlins as required. The edge corrugation easily overlaps rafters/purlins and connects to the supporting structure.
